

General Dynamics Mission Systems

Size Standard	Large, publically owned, for profit, corporate entity with approximately 13,000 employees in 150+ locations worldwide, headquartered in Fairfax, Virginia. Parent Company is General Dynamics Corp
Corporate Description	Provider of mission critical C4ISR systems across the land, sea, air, space and cyber domains, including secure communications and networking, command and control systems, imagery sensors and cyber.
Organizations we support at Goddard	Codes 400, 500

Goddard Contracts

Capabilities

Space Network Ground Segment Sustainment (SGSS)	Ground system architecture/design, development, implementation
Various Codes 400 & 500 IDIQ contracts (e.g. GSMO, SCNS)	Ground systems development/implementation, mission & ground operations support, mission readiness, IT security, systems engineering
TDRS-KLM	Ground System modifications, Sustaining Engineering
GOES-R	Antenna Systems for GOES Antenna, all RF equip, monitor & control systems

Other NASA Center / HQ Contracts

Capabilities

Research and Technologies for Aerospace Propulsion and Power Systems 2 (RTAPS 2) (GRC)	Space Communications R&D
----------------------------------------------------------------------------------------	--------------------------

Capabilities in Other Markets that could benefit Goddard's Mission

On-Orbit engineering support, Network Systems test & evaluation, VLBI2010 antennas, DSN antennas, radio telescopes, satellite telemetry, tracking, and control (TT&C) ground systems, highly reliable/available VHF-FM-based radio communications system, high performance computing, everything-over-IP ground systems, space electronics (transponders, receivers)
