

## Member Company Spotlight

# Raytheon

July 13, 2016

**Size Standard** Large, publicly owned, for profit, corporate entity with ~61K employees worldwide headquartered in Waltham, Massachusetts with 23B in 2015 sales.

**Corporate Description** Provides defense, civil government & cybersecurity solutions. Specializing in electronics, mission systems integration, capabilities in C5I (command, control, communications, computing, cyber and intelligence), sensing, effects and mission support services.

**Organizations Supported at Goddard:** Codes 423 (EED 2); 470 (JPSS; VIIRS); 581 (GOESR Systems Eng); 441 (Hubble)

### Goddard Contracts

### Capabilities

EOSDIS Evolution and Development - 2

Earth Science instrument data ingest and archive systems, agile development, client visualization access, web user interface, OCIO Cloud integrator, rapid proof of concept. Support DAACS & SIPS

JPSS Common Ground System

Ground System improvement

VIIRS-Visible Infrared Imaging Radiometer

Critical weather, environmental sensing, disaster management information

### Other NASA Center / HQ Contracts

### Capabilities

DSIO (Data and Systems Implementation and Operations) - JPL

System Engineering & Design, Development and Operations of Scientific Remote Sensing Data Processing and Management Systems

Neutral Buoyancy Lab & Space Vehicle Mockup Facility - Johnson

Operations, maintenance and engineering services

**Capabilities in Other Markets that could benefit Goddard's Mission**

High performance computing, cyber security, launch range work (LISC)

**GCA**

Goddard Contractors Association
