

Member Company Spotlight

Telophase Corporation

Size Standard Approx. 100 employees, SBA-Certified Small Disadvantaged Business, HQ in Arlington, VA

Corporate Description

Cyber security, data science, enterprise technology services, space systems engineering, outreach & education

Orgs we support at Goddard

We support codes 1xx, 5xx, 6xx, and 7xx.

Key Goddard Contracts

Capabilities

Space and Earth Science Data Analysis IV (SESDA IV)

Data science: algorithms, ingestion, archiving, visualization tools

Environmental Test and Integration Services II (ETIS II)

Thermal/optical/vacuum chamber operations, CNC machining, test equipment calibration, design modeling

Software Engineering Services II (SES II)

Software process engineering, web development for 500 missions, security control assessments (FISMA, NIST), security engineering life cycle support, cloud data security

Other NASA Center / HQ Contracts

Capabilities

NASA HQ: Programmatic and Technical Reviews

Systems engineering, design modeling, compliance management

Capabilities in Other Markets that could benefit Goddard's Mission

Technical training and user disciplines on operating systems; CubeSat R&D; unmanned application systems prototyping; miniaturizing electronic components
