

Member Company Spotlight

Stellar Solutions, Inc.

Size Standard ~200 employees, \$50M revenues, WO/SB, based in Palo Alto, CA, in business 23 yrs

Corporate Description

- Engineering services – Systems Engineering, Instrument Sys, LV Integration, SETA, & Acquisition Support for Space, Aeronautical, Military & Intel Community markets
- 5 Corporate Sectors: Civil, Defense, Intelligence, Commercial, & International
- US Offices in VA, CO, & CA. Non-US in UK, FR, & UAE

Organizations we support at Goddard Code 590 (Mission Systems), Code 550 (Instr Systems), & Code 400 Flight Projects for JPSS, GOES, PACE, L-9, WFIRST, Solar Orbiter, ICESat-2 & other projects

Goddard Contracts

Sub/teammate on SEAS, OMES II, ESES II, & SMAS

Capabilities

Space/Ground/Instrument Systems Engineering, LV Integ, Test & Verif

Other NASA Center / HQ Contracts

NASA HQ – Tech & Project Mgmt Support (TPMS)

Systems Eng, Acq Planning, & Strategic Comms for Adv Explor Systems

Ames – Space Modernization Initiative (SMI)

Systems Eng for Demo/Val of new Sensors & Technology for NASA, USAF

JPL & JSC – Sub/Teammate on MEDALS & HHPC

Systems/Discipline Engineering, Acquisition Support, Crowdsourcing

Capabilities in Other Markets that could benefit Goddard's Mission

- New Space (esp. Silicon Valley) partnering/demo of new/small SC, technology, launch
- Ground-based Astronomy & (large-scale) instruments for astrophysics, planetary science
