

Peraton

Size Standard	Large Business, Herndon, VA
Corporate Description	Mission capability integrator and transformative enterprise IT provider. Valued partner across the space, intelligence, cyber, defense, civilian, health, and state and local markets
Organizations we support at Goddard	Code 400 Flight Projects, Code 500 Engineering and Technology, Code 800 Suborbital and Special Orbital Projects

Goddard Contracts

Capabilities

Space Exploration Network Services and Evolution (SENSE)	Full life cycle space communications and tracking solutions
Environmental Test and Integration (ETIS) III	Facility O&M, I&T, Design, Manufacturing, Cleanroom Ops, Contam Control, Data Acq
NASA Balloon Operations Contract (NBOC)	Design, Development, O&M, Launch and Recovery Operations, Mission Operations
NASA Sounding Rocket Operations Contract (NSROC) III	Fabrication, Assy, I&T, Launch and Flight Operations and Recovery, Post-Flight Assessment
MIST, OMES II, SES II, ESES III, SEAS, WESC, TIDES, MOSES II	Full Spectrum Engineering Services and Manufacturing Support, HST Mission Ops

Other NASA Center / HQ Contracts

Capabilities

JPL/ DSN, MEDALS, MASS, ESMO	DSN O&M/Sustaining Engineering/Planning, Engineering, Mission Operations Support
GRC/ Glenn Engineering and Research (GEARS)	Facilities engineering & design, schedule analysis, eng s/w & sys DB support
KSC/ Expendable Launch Vehicle Integrated Support	Procure/manage Launch Services and Payload Processing Facilities, analysis, integration
HQ/ HITSS-III	Cybersecurity, ServiceNow administration/dev, IT, Azure Specific Cyber Assessments
Capabilities in Other Markets that could benefit Goddard's Mission	Virtualization, Cloud migration, FPGA design & dev, cybersecurity, Peraton Labs Applied Research, Acusil® TPS
