April 28, 2023

Stellar Solutions, Inc.

Size Standard	~220 employees, $70M revenues, WO/SB, based in Palo Alto, CA, in business 28 yrs
Corporate Description	• Engineering services – Systems Engineering, Instrument Sys, LV Integration, SETA, & Acquisition Support for Space, Aeronautical, Military & Intel Community markets • 5 Corporate Sectors: Civil, Defense, Intelligence, Commercial, & International • US Offices in VA, CO, & CA. Non-US in UK & FR
Organizations we support at Goddard	Code 590 (Mission Systems), Code 550 (Instr Systems), & Code 400 Flight Projects for JPSS, GOES/GEO XO, PACE, RST, MSR, SWFO, AOS, GDC, OSAM-1, & other projects

Goddard Contracts	Capabilities
Sub/teammate on SEAS, OMES II & ESES III	Space/Ground/Instrument Systems Engineering, LV Integ, Test & Verif

Other NASA Center / HQ Contracts	Capabilities
NASA HQ – Tech & Project Mgmt Support (TPMS)	Systems Eng, Acq Planning, & Strategic Comms for ESDMD & STMD
Ames – Space Modernization Initiative (SMI)	Systems Eng for Demo/Val of new Sensors & Technology for NASA, USAF
JPL & JSC – Sub/Teammate on MEDALS & HHPC	Systems/Discipline Engineering, Acquisition Support, Crowdsourcing

Capabilities in Other Markets that could benefit Goddard's Mission	• New Space (esp. Silicon Valley) partnering/demo of new/small SC, technology, launch • Ground-based Astronomy & (large-scale) instruments for astrophysics, planetary science
